

## **Q & A related to RFP #16**

### **Question 1:**

In Section 3.2, it states that “DSS will submit the winning SNAP-Ed plan to USDA-FNS, for approval.” Does this language indicate that there will be only one winning proposal, or is there a possibility that DSS would fund certain pieces of various winning proposals?

### **Answer 1:**

There is a possibility that more than one proposal will be funded.

### **Question 2:**

In Section 3.3, it states that “DSS will provide approved respondents with any additional state statistical information regarding SNAP recipients,...”. However in Section 4.2, it states that we must direct all of our questions to you concerning this RFP. Are you able to provide us with the statistical information for SNAP recipients to include in the narrative section of our proposal, or will we update that information only if we are notified that we are the winning proposal?

### **Answer 2:**

The statistical information requested in the SNAP Ed plan will be provided to the winning respondent(s) and will be incorporated into the plan that is submitted to FNS. If past statistical information is known, it can be added to the SNAP-Ed plan by the respondent(s). RFP’s will not be considered incomplete if this information is not provided in the submitted RFP SNAP-Ed plan.
